Message from the CEO & Chair

It is never a single person, nor a single contribution; it is a common purpose that brings people together.

Each year, the Foundation has the privilege of working side-by-side with provincial businesses, individuals, community groups, medical professionals, and families to build their children's hospital. This year has yielded added excitement as we witness the new hospital taking shape. The Saskatchewan landscape is changing, and so will the delivery of care to our youngest patients and moms-to-be with remarkable enhancements made possible through your support.

On May 30, 2017, the Foundation revealed the largest one-time individual philanthropic gift in our provincial history: a \$50 million contribution from Saskatchewan's Mr. Jim Pattison. Most importantly, it provides even more opportunities to enhance maternal and pediatric care in Saskatchewan.

In typical Saskatchewan style, Jim Pattison returned to his roots and placed his heart and hope for the future in our provincial community. While the name of our Foundation changed with this gift, our commitment to children, families, and moms-to-be has not.

Jim Pattison Children's Hospital Foundation will continue to work with healthcare teams from all corners of our province, as well as our key stakeholders and the Ministry of Health to ensure your hospital is world-class. We are devoted to making this new maternal and children's hospital one that will inspire great pride for all who come through those doors.

On behalf of our Board of Directors and incredible Foundation team, please accept our sincere thanks for believing in a dedicated maternal and children's hospital. Each person who has given to this cause, regardless of amount, in time or funds, has provided us an opportunity to assist in building a stronger and healthier province.

This is the legacy that you are building; an inspirational Saskatchewan children's hospital - your children's hospital.

Shelley Brown
Chair of the Board

Brynn Boback-Lane
President and CEO

Message from the Minister of Health

On behalf of the Government of Saskatchewan and the Ministry of Health, I offer my congratulations and sincere appreciation to Jim Pattison Children's Hospital Foundation for a prolific year of fundraising and support for the new children's hospital under construction in Saskatoon.

Jim Pattison Children's Hospital will better meet the needs of our province's children and expecting mothers and families by enhancing child patient care, and enabling the recruitment and retention of pediatric specialists.

We commend the Foundation for its strong leadership in raising awareness and donations, and for its dedication to the enhancement of maternal and children's health care throughout Saskatchewan. Celebrating 25 years of support for maternal and pediatric health services, as well as research and equipment enhancements, the Foundation is well over halfway towards its \$75 million commitment. This is truly something to be proud of.

This year, the Foundation received its largest gift ever from the Jim Pattison Foundation. Mr. Pattison, originally from Luseland, Saskatchewan, is a Vancouver-based businessman and philanthropist. We are grateful for his generosity.

Our Government is committed to building the best children's hospital possible for the people of Saskatchewan, and we are working to deliver on that promise. Construction of the \$285.2 million project remains on schedule and on budget, having passed the 63% completion point earlier this year. The hospital is scheduled to open in late 2019, and we couldn't be more excited.

This project would not be possible without the corporations and individual Saskatchewan citizens who have given generously to the Foundation's capital campaign. Your kindness has made a much bigger impact than you realize. Thank you all.

The Honourable Jim Reiter

 JIM PATTISON CHILDREN'S
 HOSPITAL

TOTAL: \$1,648,569

Jim Pattison Children's Hospital Foundation has distributed \$1,648,569 for current maternal and pediatric needs. In addition, \$100,000 was designated for a research chair position in the pediatric department for exceptional emerging researchers and research needs.

A new day dawned...

...in maternal and pediatric healthcare this year with the announcement of the largest one-time donation in Saskatchewan history to a charitable organization.

Businessman and philanthropist Jim Pattison, originally from Luseland, Saskatchewan, generously donated \$50 million to Children's Hospital Foundation of Saskatchewan. The historic gift was earmarked to help support world-class maternal and pediatric research and equipment at the new provincial children's hospital. In honour of the unprecedented gift, the new provincial hospital has been renamed Jim Pattison Children's Hospital. Our Foundation also followed suit, becoming Jim Pattison Children's Hospital Foundation.

The bulk of this extraordinary gift will provide a steady stream of revenue to help meet long-term research and programming needs when the doors open in late 2019. We are grateful beyond measure to Jim Pattison for this remarkable gift that will transform the future of maternal and pediatric health care in Saskatchewan.

6 EXTRAORDINARY THINGS YOU MADE POSSIBLE THIS YEAR

While we continue to focus on bringing our new maternal and children's hospital to life, we are also committed to providing hope and healing today by funding some of our province's most urgent maternal and pediatric needs, as well as our most promising research.

1

You Helped Babies Breathe Easier

Heated Humidified High-Flow Nasal Cannula provides "no pokes" respiratory support for children in respiratory distress. This equipment helps bring a travelling Intensive Care Unit to children in need with the Pediatric Transport Team, which made over 550 trips across Saskatchewan last year. This exceptional piece of equipment was funded through the Making Spirits Bright Holiday Giving campaign.

2

You Gave Parents 24-7 Remote Access to Their Babies

Saskatchewan families are the first in Canada to have access to 10 bedside NICVIEW webcams mounted on Neonatal Intensive Care Unit incubators. These webcams allow families to see what goes on inside their baby's incubator no matter where they are in the province. This world-class technology was made possible through donations to our NICU-designated fund as well as through the support of the community fundraiser Bloom.

3

You Gave Hope to Tears with Anorexia

This new two-year bone health pilot study is examining the potential use of an estrogen patch to help alleviate and/or prevent bone loss and fragility due to anorexia nervosa in teen girls aged 12-20. With no proven treatment or prevention therapy currently available, new strategies are desperately needed. The results of this research have potential for global impact.

4

You Brought Cutting-Edge Care to Kids with Brain Injuries

For the first time in Canada, the new Transcranial Doppler Transducer will offer the highest level of care possible for Saskatchewan children with brain injuries. This sophisticated technology, together with novel software, monitors blood flow to the brain and has widespread research and treatment applications for the over 20% of children admitted to Saskatchewan's Pediatric Intensive Care Unit who suffer from either neurological complications or central nervous system injuries.

You Safely Transported Children Across the Province

A world-class pediatric ambulance hit Saskatchewan roads thanks to a partnership with Synergy 8 Community Builders. Complete with infrared night vision to detect wildlife, a larger gas tank to reduce stops, and seating for parents, this new "hospital-on-wheels" features two transport bays, allowing the provincial Pediatric Transport Team to safely treat two patients at once. Through donations to the Children's Hospital Radiothon, the Foundation contributed \$100,000, which was matched by the Sandra Schmirler Foundation.

5

You Cared for Newborn Babies' Hearts

Two new fetal heart monitors replaced aging equipment pieces past their expected life cycle. Purchased through the Making Spirits Bright Holiday Giving campaign, these new monitors track the heart rate of babies so that maternal healthcare providers can tell if the baby is doing well or is in distress during the approximately 5,600 deliveries in the Maternal Care Centre each year.

Payton
2018 Here

OUR SASKATCHEWAN HERO

The Children's Miracle Network Hero Program presented by Walmart Canada, honours remarkable children who have triumphed despite severe medical challenges. Each child acts as an ambassador for his or her Children's Miracle Network hospital. In Saskatchewan, Jim Pattison Children's Hospital Foundation is the sole Saskatchewan member.

Payton was only six years old when she developed severe unexplained tummy pain. Things got so bad that she could hardly walk. Unknowingly, little Payton had hundreds of tumors growing inside her which gave doctors an alarming lead on an eventual diagnosis of stage 4 Lymphoblastic Leukemia and Lymphoma. The Estevan girl had received the worst news imaginable. The diagnosis was devastating to the family of four.

The fight of her life started with 40 days in isolation in hospital. Payton's 11-month treatment began with X-rays, tests, ultrasounds, CT and MRI scans, biopsies and bone marrow aspirations, plus many painful episodes of blood work before beginning nearly a full year of intense chemotherapy. She was exhausted, lost her hair, and even some teeth, but the hardest part for Payton was being away from her little brother Beckham who remained at home during her treatments.

Now nine years old, Payton has spent well over 200 days in hospital but is happy to report that she's cancer free.

Payton's diagnosis compelled her to share her story to show other kids that cancer doesn't have to be scary. The fourth-grader now speaks to schools and clubs about her journey. Payton and Beckham launched "The Cancer Sucks Project" to fundraise for Jim Pattison Children's Hospital Foundation to help kids just like her, who will, at times, call the new children's hospital home.

we can't wait...

CAPITAL CAMPAIGN

With your support, \$61 million has been raised to make Jim Pattison Children's Hospital a special place for kids, moms-to-be, and families. We are committed to raising a minimum of \$75 million to ensure all of the enhancements and family-friendly pieces will be ready when the doors open in 2019.

AREVA Resources Canada

Thanks to a thoughtful gift of \$500,000 from AREVA Resources Canada, families waiting for the arrival of their new bundle of joy will now have a dedicated Family Room in the Maternal Care Centre at the new provincial children's hospital. The welcoming space will offer a comfortable, home-like environment complete with a dining area, comfortable lounge furniture, and a large television.

Duane & Bev Smith

A generous contribution of \$500,000 from Duane and Bev Smith of Swift Current will fund a special Family Play Space in Day Medicine for children undergoing treatment for cancer and other serious illnesses. The new space will provide a comfortable environment where families can rest, relax, and play prior to specialist appointments or infusion treatments, bringing a little sunshine and normalcy to these young patients as they battle their way back to health.

Cugnet Family

Doing their part to bring hope and healing to Saskatchewan children and families has always been a priority for the Cugnet family of Weyburn. To give back to the province they proudly call home, the family made an incredible \$1 million gift in memory of late husband and father Ken Cugnet. Their gift will fund one of 3 new state-of-the-art Pediatric Surgical Suites at Jim Pattison Children's Hospital, which will be the first of their kind in Saskatchewan.

FUNDRAISING ACROSS SASKATCHEWAN

Every day people across Saskatchewan raise funds for Jim Pattison Children's Hospital Foundation. These are just a few of the highlights of the many special fundraisers we will never forget.

Our Biggest Fundraiser

Raising a remarkable \$310,000, Wieggers Care for Kids' Comedy CIRQUEit was our highest earning community fundraising event of the year. The all-inclusive modern day, circus-themed comedy and cabaret was a night to remember for the 350 guests in attendance.

Street Hockey Dominance

Shutting down a city street in downtown Saskatoon along the South Saskatchewan river bank, Colliers hosted the Colliers Cup, bringing 140 team players together for street hockey bragging rights in support of kids in need.

Kids' Golf Course Takeover

Over 700 golf balls were hit during the 2nd annual Brian Maunula Memorial Golf Tournament in North Battleford. Brian's seven-year-old grandson Shae created the golf tournament just for kids to honour his Grandpa Brian's memory, and to follow his passion and support of Saskatchewan kids.

Our Most Extreme Fundraiser

Mel Fitzpatrick embarked on the most challenging fundraisers of the year - a journey across Saskatchewan on his bicycle to raise funds and awareness for the Foundation. Starting at the Manitoba border, all the way to the Alberta border, he biked an incredible 711km!

Fairy Tale Fundraising

Seven real-life princesses visited the Glen at Crossmount at the most magical fundraiser this year, with a fairy-tale evening celebrating Saskatchewan's tiniest patients in the Neonatal Intensive Care Unit.

Our Fittest Fundraiser

Jolene Rogers held the toughest fundraiser this year by hosting a summer bootcamp. Participants did over 24,000 squats (and much more) to promote healthy living while raising funds for maternal and pediatric healthcare.

Runners with Heart

Our most heart healthy event, the Heart Beat Run, saw participants run over 1,800km in total to raise funds for pediatric cardiology in Saskatchewan.

Teddy Bears Everywhere

The most decorative fundraiser of the year goes to the employees of Federated Co-op Ltd. They decorated the province in 37,000 "Game Day Approved" Co-op teddy bear icons in support of Saskatchewan moms, babies, children and teens.

Pumpkin Maze Mania

With over 1,300 pumpkins and a fall chill in the air, the Berry Barn opened its fall Fun Zone and collected donations for the Foundation, warming the hearts of Saskatchewan moms and kids.

One of Our Youngest Fundraisers

A true superhero, five-year-old Ivy gave up her birthday for kids in hospital by asking for donations instead of gifts, raising an inspiring \$155.

Our Most Musical Fundraiser

Regina's Justin Labrash and his band toured around the province, playing 83 shows with Saskatchewan kids in mind. Performing for over 80,000 people, he gave back a portion of his show revenue to support pediatric healthcare.

SIGNATURE EVENTS

Across the province and throughout the year; these events ensure Jim Pattison Children's Hospital Foundation continues to help children and families.

Children's Hospital Radiothon

Presented by CIBC Wood Gundy - Regina

The 14th annual Children's Hospital Radiothon in Regina raised over \$532,000 for Saskatchewan kids and families. The two-day event was broadcast live across southern Saskatchewan with Harvard Broadcasting's 620 CKRM, MY92.1, and 104.9 The Wolf. Many Saskatchewan families shared their journey of having a sick child, and what a children's hospital in our own province will mean for them. Special guests included: Health Minister Jim Reiter, Grey Cup Champion Mike McCullough, and players from the Regina Pats.

13 Corporate sponsors

240 Volunteer hours

Donors like you funded:

2 Fetal Telemetry Units to shorten labour for Saskatchewan moms

1 Pulmovista 500 Unit to help Saskatchewan kids breathe easier

Children's Hospital Radiothon

Presented by Your Local SaskEnergy Network Member - Saskatoon

Hitting the airwaves for three days of live broadcasting from The Centre Mall, the Children's Hospital Radiothon in Saskatoon raised over \$430,000. Listeners tuned in to 600 CJWW, 92.9 The Bull and 98Cool FM to hear stories from families who know what a difference a dedicated children's hospital can make. Special guests included: the Saskatchewan Crush Dance team, Saskatchewan kids, families, and healthcare providers who care for our kids every day.

10 Corporate sponsors

360 Volunteer hours

Donors like you funded:

1 4D Ultrasound for moms

1 INVOS machine to help protect the brains of newborn babies

1 AEEG Monitoring System for early detection of seizures in high-risk premature babies

Children's Hospital Jeans & Jewels Gala

Presented by Mosaic

On April 28, it was a garden party like no other as guests took in a sumptuous botanical garden escape filled with fresh flowers and fairies. The evening included a gourmet three-course meal, lavender champagne reception, flower crowns, a sweet candy bar, and photo booth. After being inspired by Champion Child Calla Gross and her journey, guests enjoyed entertainment by Weyburn's own Canadian Country Music Association Award nominee Tenille Arts.

650+ Guests

17 corporate sponsors

110 silent auction items

300 handmade flower crowns

\$230,000 net proceeds

OUR PARTNERSHIPS

We are the proud Saskatchewan member of Children's Miracle Network, a non-profit organization dedicated to raising funds and awareness for children's hospitals across North America, including 14 in Canada.

Through our partnerships, we work with generous organizations across our province. Customers, employees and associates of these dedicated partners help create countless miracles right here in Saskatchewan, many of them \$1 at a time. Through the sale of Miracle Balloons, in-store donations, events, corporate matches, or donations for each completed transaction, each partner helps Saskatchewan children in their own incredible way. Every donation made in Saskatchewan stays here to ensure that every dollar raised helps local kids.

FINANCIAL HIGHLIGHTS

As the Foundation began raising funds to help create a maternal and children's hospital for Saskatchewan, the Canada Revenue Agency gave approval to designate and accumulate funds for this purpose. While capital is being raised for the new provincial hospital, Jim Pattison Children's Hospital Foundation continues to respond to urgent maternal and pediatric funding needs on an annual basis.
